

# 2024 BHCA Nationals

*Albany, Oregon Sept 7-13, 2024*

**BHCA Members, Breeders and  
Fanciers Are Invited To Learn More  
About the Basset Hound!**

## **ANATOMY 101**

### **COLORS of Conformation**

---

**Presented by Claudia Orlandi**

**Date: Thursday, September 12, 2024**

*Time and Room to be announced*

**Why does the Basset Hound look the way it does?** This seminar and fun event will focus on understanding the unique structure of the Basset based on our breed standard. We will also discuss:

- ***The biggest myth about producing correct angulation in your dogs***
- ***Tips for breeding correct angles***

**Bring your dogs to the hands-on workshop after the seminar to learn how to evaluate angulation!**

Correct angulation sets the stage for correct movement and backlines, yet many breeders have never been taught how to correctly measure angles in their dogs nor the genetic rules to follow to produce good angles.

Claudia has presented over 150 seminars on dog breeding and canine anatomy at dog clubs and AKC/CHF Breeder's Symposia throughout the country and for many years, chaired the BHCA Judge's and Breeder's Education Committees.

Attendees will receive a copy of Practical Canine Anatomy & Movement, the Basset Hound Illustrated Standard, a Pocket Guide to the Basset Hound plus angle measuring tools and a rainbow tote bag.

Along with our **Colors of Conformation** workshop, we will be offering fun activities where attendees will be eligible to compete for **\$500 worth of prizes!**

**Attendance is FREE!**

If you plan to attend the Colors of Conformation, please email or send the below pre-registration information to Bethany Berger, Chairman, Member Education, at [bethanyjberger@yahoo.com](mailto:bethanyjberger@yahoo.com)
